Dear Student,

Hereby are the rules and restrictions of practical procedure for Defaii Emission. Review these points carefully so as to prevent any possible complications and/or difficulties facing yourself or others resulting from the practice of Defaii.

- Obtaining consent is mandatory before initiating the Defaii Emission Link. Nobody has the right to make this decision on behalf of others.
- For those who are not capable of providing consent, permission from a guardian or custodial individual is required.
- The purpose of the Defaii Emission Link is not for amusement, but rather should be used exclusively for its intended purpose.
- The Defaii Emission Link is one of the Links to Interuniversal Consciousness that is delegated to you by an Interuniversalism Tutor with its own Protective Layer, and cannot be delegated to others by you (based on the natural laws governing our universe).
- This Link must only be used toward serving people in need of help (engaged with non-organic viruses); the advancement of benevolent purposes; seeking information about the true nature and functionality of our universe; and any movement toward collective awareness.
- The Defaii Emission Link should only be used after several sessions of Faradarmani have been conducted, and after reasonable situational analysis and education of the patient (where possible) has been completed.

Any violation of the Defaii Emission Link not only can cause negative consequences for both the therapist and patient, but also may lead to disconnection from the Interuniversal Consciousness and Protective Layer.

Wishing you absolute well-being and awareness

Mohammad Ali Taheri
